- 1. On 15 January 1954, the Barbara Kaserne (8301) in Meiningen was occupied by 700 to 800 troops. The installation was guarded by a sentry with black-bordered crimson epaulets. In the afternoon, 80 to 100 soldiers, probably recruits, drilled in the barracks yard. Intensive vehicular traffic was seen in the billeting area. The garages were occupied to capacity by trucks. An AT gun was standing in front of a garage.
- 2. On 15 January, the Haupt Kaserne (8302) was occupied by about 400 troops with black-bordered crimson enaulets. In the afternoon, about 50 EM drilled in the barracks yard. There was intensive vehicular traffic. Source observed that several garages were only partly occupied by trucks.

Comment. The information apparently indicates no change in the occupation. 25X1
